Office Hours:
By Appointment

Course Information

Lectures: Thursdays 11:30 AM - 2:20 PM see Mosaic for location

Labs: N/A

Tutorials: N/A

Course Dates: 01/04/2027 - 04/07/2027

Units: 3.00

Course Delivery Mode: In Person

Course Description: An introduction to various medical conditions, systemic and social-environmental disabling factors, and the construction and experiences of disability, emphasizing self-determination, autonomy, and agency. Lectures, student-led interactive group presentations, and community engaged experiential learning (three hours); one term Prerequisite(s): Six units from HTHSCI 1D06 A/B, 1H06 A/B, 2F03, 2FF3, 2L03, 2LL3, KINESIOL 1A03, 1AA3, 1Y03, 1YY3, 2X03, 2XX3, 2Y03, 2YY3; and registration in Level III or above This course may be taken as elective credit by undergraduates in Level III or above of a non-Kinesiology program. However, enrolment for such students is limited.

This course examines disability and social inclusion in the contexts of active lifestyles and discusses how to be a knowledgeable, ethical, and socially responsible practitioner/health promoter for people with diverse abilities in various physical activity contexts. This course also focuses on evidence-informed, inclusive, and ethical planning, implementation, and evaluation of physical activities as a way of promoting active lifestyles for everyone.

Meeting Details

For all course-related communication, please email at kin3b03@mcmaster.ca

I am available to meet after each class. For private meetings, please schedule an appointment at a time that works for you.

Course Learning Outcomes

- Critically discuss the merits and pitfalls associated with different theories related to disability
- Discuss and explain a holistic, integrated, and bio-psychosocial approach to addressing disability in movement and physical activity
- Discuss, illustrate, and debate physical, psychological, and social causes and consequences of diverse disabling conditions in physical activity contexts
- Identify personal, social, intersectional, and systemic barriers creating and perpetuating disability experiences and seek solutions upholding agency, engagement, and self-determination
- Design and implement adaptive, inclusive, and accessible physical activity programs and environments for people experiencing disabilities
- Identify and resist systemic marginalization and social exclusion experienced by disabled people, and advocate for accessibility and social inclusion

Required Materials and Texts

Please sign in with your MacID [here](#) to view your booklist

N/A

There is no required textbook for this course. Online links to the required readings will be provided via Avenue. Readings will be freely available through the McMaster library and external websites.

Class Format

In Person

We will meet in-person. You are the center of your learning. Therefore, I encourage you to participate in your education actively, promoting your personal growth and lifelong learning. This course will feature various interactive and hands-on learning activities such as small group discussion, peer learning, team-based learning, critical self-reflection, experiential learning, case study, and knowledge sharing.

To fully acknowledge real-life issues, we will have the privilege to listen to the stories of disabled people with lived experiences of systemic oppression and exclusion in physical activity. Furthermore, we will invite researchers, in-service practitioners, field experts, and community stakeholders from various academic and professional sectors as speakers or panel members to maximize interdisciplinary and community-informed learning experiences.

One of these sessions will be pre-recorded as a way of honouring the time and location of some of the invitees. The recorded session will be made available on Avenue. Approximately one hour of additional work outside the virtual session will be assigned for your reflection. More information about virtual session will be available on Avenue.

Course Evaluation

The course will include five evaluation items.

Course Evaluation Details

Method	Evaluation	Weight
Midterm Exam	Multiple choice, short and long answer	25%
Assignment 1	Medical and disabling conditions report	15%
Assignment 2	Parasport / adaptive/inclusive/accessible PA report	15%
Group Project	Case study report and presentation	20%
*Final Exam	Applied learning assessment: Scenario-based and problem-based questions	25%

*This is the final assessment piece for the course. If this component is completed, you cannot withdraw from the course.

Undergraduate Grading Scale

The grades breakdown for McMaster's 12-Point Grading Scale

Grade	Equivalent Grade Point	Equivalent Percentages
A+	12	90-100
A	11	85-89
A-	10	80-84
B+	9	77-79
B	8	73-76
B-	7	70-72
C+	6	67-69
C	5	63-66
C-	4	60-62
D+	3	57-59
D	2	53-56
D-	1	50-52
F	0	0-49

Course Schedule

This is a draft copy and the final version will be posted at the start of term.

Week 1: Disability and ableism in active living

Week 2: Accessibility and social inclusion in physical activity (PA) contexts

Week 3: Medical and disabling conditions in PA 1

Week 4: Medical and disabling conditions in PA 2

Week 5: Adaptation and inclusion related theories and models in PA

Week 6: Experiential and applied learning information session / Midterm Exam

Week 7: Parasport / adaptive/inclusive/accessible PA 1

Week 8: Parasport / adaptive/inclusive/accessible PA 2

Week 9: Examples of adapted physical activity practice / adaptation strategies 1

Week 10: Examples of adapted physical activity practice / adaptation strategies 2

Week 11: Case study group presentations 1

Week 12: Case study group presentations 2

Laboratory Overview, Operation, and Safety

N/A

Late Assignments

Greater than 15 min late (i.e., past due date) will result in a -10% penalty. At 24 hrs past deadline, an additional -15% penalty will be added. At 48hrs past deadline, an additional -25% will be added. Any submission beyond 72hrs late will be given a grade of 0. Students are responsible for ensuring that they have submitted (1) the correct document and that it is (2) accessible, based on the requirement of the A2L Dropbox. Assignments submitted that are inaccessible or otherwise unreadable will receive the above late penalty, regardless of time of discovery.

Turnitin.com

Some courses may use a web-based service (Turnitin.com) to reveal authenticity and ownership of student submitted work. For courses using such software, students will be expected to submit their work electronically either directly to

Turnitin.com or via an online learning platform (e.g. A2L, etc.) using plagiarism detection (a service supported by Turnitin.com) so it can be checked for academic dishonesty.

Students who do not wish their work to be submitted through the plagiarism detection software must inform the Instructor before the assignment is due. No penalty will be assigned to a student who does not submit work to the plagiarism detection software. All submitted work is subject to normal verification that standards of academic integrity have been upheld (e.g., on-line search, other software, etc.). For more details about McMaster's use of Turnitin.com please go to www.mcmaster.ca/academicintegrity.

Course Modification

The course can be adjusted during the term to accommodate students' learning pace.

Generative AI: Use Prohibited

Students are not permitted to use generative AI in this course. In alignment with [McMaster academic integrity policy](#), it "shall be an offence knowingly to ... submit academic work for assessment that was purchased or acquired from another source". This includes work created by generative AI tools. Also stated in the policy is the following, "Contract Cheating is the act of "outsourcing of student work to third parties" (Lancaster & Clarke, 2016, p. 639) with or without payment." Using Generative AI tools is a form of contract cheating. Charges of academic dishonesty will be brought forward to the Office of Academic Integrity.

Course Specific Relief for Missed Academic Work Information

Requests for Relief for Missed Academic Term Work

In the event of an absence for medical or other reasons, students should review and follow the [Policy on Requests for Relief for Missed Academic Term Work](#).

Requests for missed academic work worth less than 25% of the final grade resulting from personal or medical situations, lasting up to 3 calendar days, can be reported, once per term, without documentation, using the McMaster Student Absence Form (MSAF). Relief for missed work for a longer duration or for other reasons must be reported to your Faculty office, and relief from term work may not necessarily be granted. When using the MSAF, report your absence to the course instructor immediately (kin3b03@mcmaster.ca). Please note that the MSAF may not be used for final deliverables, nor can it be used for a final examination.

- Missed midterm exam: not MSAF-extension eligible (25% of the final grade).
- Missed deadline for an assignment: An approved MSAF will grant an additional 72-hour extension to the submission window. Follow MSAF procedures and communicate via kin3b03@mcmaster.ca for both notification and form submission.
- Missed group project: not MSAF-extension eligible.
- Missed final exam: Students who miss a Registrar-scheduled final exam can apply to the Associate Dean's office for permission to write in the deferred final exam schedule. In all cases, appropriate documentation must be submitted to the Office of the Associate Dean, Faculty of Science, for consideration of deferred examination permission. Under no circumstances will the instructor re-schedule a final exam for individual students.

Checking Grades & Regrade Policy

Checking Your Grades

Your grades will be recorded on Avenue. It is your responsibility to verify that all grades have been entered correctly. Any concerns or discrepancies must be reported via email to kin3b03@mcmaster.ca within **one week** of the grade being posted.

Regrade Policy

If you believe your work has not been graded fairly, you must submit a clear and organized written rationale—using the assignment outline and grading rubric—

explaining why you are requesting a regrade. This request must be submitted via email to kin3b03@mcmaster.ca within **one week** of receiving your grade.

If your rationale is deemed reasonable, the assignment will be re-graded by a different evaluator. The resulting grade will be considered final, regardless of whether it is higher or lower than the original mark.

APPROVED ADVISORY STATEMENTS

Academic Integrity

You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity. **It is your responsibility to understand what constitutes academic dishonesty.**

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: "Grade of F assigned for academic dishonesty"), and/or suspension or expulsion from the university. For information on the various types of academic dishonesty please refer to the [Academic Integrity Policy](#).

The following illustrates only three forms of academic dishonesty:

- plagiarism, e.g. the submission of work that is not one's own or for which other credit has been obtained.
- improper collaboration in group work.
- copying or using unauthorized aids in tests and examinations.

Authenticity / Plagiarism

Some courses may use a web-based service (Turnitin.com) to reveal authenticity and ownership of student submitted work. For courses using such software, students will be expected to submit their work electronically either directly to

Turnitin.com or via an online learning platform (e.g. Avenue to Learn, etc.) using plagiarism detection (a service supported by Turnitin.com) so it can be checked for academic dishonesty.

Students who do not wish their work to be submitted through the plagiarism detection software must inform the Instructor before the assignment is due. No penalty will be assigned to a student who does not submit work to the plagiarism detection software. **All submitted work is subject to normal verification that standards of academic integrity have been upheld** (e.g., on-line search, other software, etc.). For more details about McMaster's use of Turnitin.com please go to www.mcmaster.ca/academicintegrity.

Courses with an On-line Element

Some courses may use on-line elements (e.g. e-mail, Avenue to Learn, LearnLink, web pages, capa, Moodle, ThinkingCap, etc.). Students should be aware that, when they access the electronic components of a course using these elements, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in a course that uses on-line elements will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure please discuss this with the course instructor.

Online Proctoring

Some courses may use online proctoring software for tests and exams. This software may require students to turn on their video camera, present identification, monitor and record their computer activities, and/or lock/restrict their browser or other applications/software during tests or exams. This software may be required to be installed before the test/exam begins.

Conduct Expectations

As a McMaster student, you have the right to experience, and the responsibility to demonstrate, respectful and dignified interactions within all of our living, learning and working communities. These expectations are described in the [Code of Student Rights & Responsibilities](#) (the “Code”). All students share the responsibility of maintaining a positive environment for the academic and personal growth of all McMaster community members, **whether in person or online.**

It is essential that students be mindful of their interactions online, as the Code remains in effect in virtual learning environments. The Code applies to any interactions that adversely affect, disrupt, or interfere with reasonable participation in University activities. Student disruptions or behaviours that interfere with university functions on online platforms (e.g. use of Avenue 2 Learn, WebEx or Zoom for delivery), will be taken very seriously and will be investigated. Outcomes may include restriction or removal of the involved students’ access to these platforms.

Academic Accommodation of Students with Disabilities

Students with disabilities who require academic accommodation must contact [Student Accessibility Services](#) (SAS) at 905-525-9140 ext. 28652 or sas@mcmaster.ca to make arrangements with a Program Coordinator. For further information, consult McMaster University’s [Academic Accommodation of Students with Disabilities](#) policy.

Requests for Relief for Missed Academic Term Work

In the event of an absence for medical or other reasons, students should review and follow the [Policy on Requests for Relief for Missed Academic Term Work](#).

Academic Accommodation for Religious, Indigenous, or Spiritual Observances (RISO)

Students requiring academic accommodation based on religious, Indigenous or spiritual observances should follow the procedures set out in the [RISO](#) policy. Students should submit their request to their Faculty Office ***normally within 10 working days*** of the beginning of term in which they anticipate a need for accommodation or to the Registrar's Office prior to their examinations. Students should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests.

Copyright and Recording

Students are advised that lectures, demonstrations, performances, and any other course material provided by an instructor include copyright protected works. The Copyright Act and copyright law protect every original literary, dramatic, musical and artistic work, **including lectures** by University instructors.

The recording of lectures, tutorials, or other methods of instruction may occur during a course. Recording may be done by either the instructor for the purpose of authorized distribution, or by a student for the purpose of personal study. Students should be aware that their voice and/or image may be recorded by others during the class. Please speak with the instructor if this is a concern for you.

Extreme Circumstances

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, Avenue to Learn and/or McMaster email.
